## Introduction

*Please make your introductory comments below, if any:*

<ESMA\_COMMENT\_CP\_RVIEW\_1>

ASSOSIM welcomes the opportunity to provide comments on this Consultation Paper (CP). However, we note that – as is well known and as ESMA itself **points out** in the CP – the EU Commission is preparing its review report on MiFID II/MiFIR and legislative amendments to Level 1 rules are expected. Therefore, although we acknowledge that ESMA expressly defines the proposals made in the CP as “limited in scope”, we would like to stress the need to avoid – pending the aforementioned review - the introduction of Level 2 changes entailing significant amendments in the procedures and in the IT systems of financial intermediaries. Furthermore, on many occasions ASSOSIM stressed the significant economic burdens brought by MiFID II/MiFIR requirements for the financial industry. Therefore, the possible occurrence of further costs due to the need to comply with new requirements (i) would worsen the current scenario considering the critical situation for intermediaries caused by the pandemic, and (ii) could be of no particular benefit in light of the aforementioned review and of possible subsequent amendments to be made in the near future. Finally, we would like to draw the attention on the importance of ensuring that the definition of non-price forming trades is clarified in RTS 1 and RTS 2 in order to ensure a consistent application of transparency requirements and to improve data quality across the EU. With respect to such non-price forming trades, we would propose ESMA to clarify that RTS 1 and 2 allow investment firms to rely on the exemption from post trade transparency in situations where no effective change of ownership occurs since a publication of such trades could be in conflict with MAR principles/requirements.

<ESMA\_QUESTION\_RVIEW\_8>

In principle, we are in favor of ESMA's proposals only upon condition that they are fully coherent with the final outcome of the current review of MiFIR transparency regime as a whole. The rationale of our stance in this respect lies in avoiding any unnecessary duplication of activities and costs in relation to pre-trade disclosure.

<ESMA\_QUESTION\_RVIEW\_25>

**Q26 : Please indicate, if applicable, which medium-term targeted improvements you would like to see to the threshold calibrations in RTS 2.**

<ESMA\_QUESTION\_RVIEW\_26>  
We agree with ESMA's decision to abstain from a broad review of the regulatory framework related to LIS and SSTI thresholds across all asset classes, given that we appreciate the rationale i.e. waiting for potential changes to the Level 1 legislation regarding non-equity instruments in the context of the current MiFIR review process.
